

# TRACK PROGRESS USING ANIMALS FROM INDIA!

Let India's fascinating wildlife join the excitement of helping kids! Use the printable Indian animals from the director resources to mark the progress for Operation Care.

Choose a prominent wall or designated area to be your "Wild about Showing Jesus' Love" wall. When students bring an offering for Operation Care, give them an animal cutout to attach to the wall. When animals fill the wall, celebrate!

Consider varying the contest: **(1)** Make teams, each with its own area to fill. **(2)** Or if your VBS has five age groups participating in the project, each age group could be a team, with its animal design and area of the wall. **(3)** Or mark a starting line and finish line and let teams race by adding animals.

Make it fun! Celebrate reaching your goals in a variety of ways. Consider rewards that'll get students laughing while building memories, like a brave leader receiving a pie in the face.

Print many copies of the animals in this PDF.  
Cut out the animal circles and let students  
attach them to a wall with tape or  
removable adhesive putty to  
mark the progress for  
Operation Care!
