

LONG-LASTING IMPACT

Through RBP VBS missions offerings, you have helped hundreds of children know God's love and made life better for them! For example, one year the offering helped build bunk beds and made other improvements in living conditions for 180 children in Bangladesh. Another year, the offering provided hundreds of books for schools in Liberia so children can prepare for a better future. And most important—many children have heard the good news about Jesus!

The great thing about these projects is that they are gifts *from* children to children. Through being part of the missions offering, VBS students are being genuine friends to others around the world!
